

## DEPOSITING MONEY IN THE BANK

When I get a check I put it in the bank.

I make a deposit slip.

I write my name on the deposit slip.

I write my address on the slip, too.

I then write the date on the deposit slip.

Next I write the bank named on the check.

Then I write the amount of the check.

If I have two checks I write the bank named on each.

I write the amount of money named in each check.

I then write the total amount of each check.

Then I endorse each check.

I write my name on the back of each check to endorse it.

Every check must be endorsed.

I keep my \_\_\_\_\_ in the bank.

I deposit the money in the \_\_\_\_\_.

First I write my name on the \_\_\_\_\_.

My address is the place where I \_\_\_\_\_.

I then write the bank \_\_\_\_\_ on each check.

Next I write \_\_\_\_\_ date on the slip.

I also write the \_\_\_\_\_ of each check.

Then I \_\_\_\_\_ the total.

I then \_\_\_\_\_ the check.
